## PREFACE

This directory is designed to provide Missouri citizens, educators, state agencies, and employers a source of information regarding career education programs available in public comprehensive high schools, area vocational schools, community colleges and four-year colleges and universities throughout the State of Missouri.

The Classification of Instructional Programs (CIP) codes and titles listed in this directory represent only those career education programs offered that are financially assisted through state and federal career education funds. The titles are printed as each career education program is classified by the national Classification of Instructional Programs and are not necessarily the same as the institution may entitle them.

The Special Projects section of this directory contains information regarding the location and mission of career education services, activities and projects supported by state and federal career education funds for targeted groups, i.e., Single Parent, Displaced Homemaker, Gender Equity and High Technology Training Coordination between the education and business and industry communities. These projects provide services throughout the state. They are provided in addition to those available at each comprehensive high school, area vocational school, community college, or college and university.

## **STATEWIDE SPECIAL PROJECT IN SEX EQUITY**

### **Project ENTER - Education for Nontraditional Employment Roles**

#### **MISSION**

Project ENTER focuses on establishing a marketing strategy that will help change stereotypical perceptions of the job market. The project's goal is to build awareness and enhance the image of nontraditional career education opportunities. ENTER does this by networking, producing and distributing such promotional materials as brochures, posters, advertisements, fliers, and newsletters. Other activities include exhibiting at conferences, making presentations, placing advertising in statewide publications, promoting nontraditional students in the media, providing area vocational schools and community colleges with technical assistance and coordinating a statewide contest for nontraditional students. This effort has culminated in the Breaking Tradition Award Contest for secondary and postsecondary/adult students enrolled in vocational programs that are nontraditional for their gender.

## **STATEWIDE SPECIAL PROJECT IN SEX EQUITY**

### **Project SERVE - Sex Equity Resources in Career education**

#### **MISSION**

Project SERVE provides sex equity resources for career education through professional development programming, technical assistance for NEW TRADITIONS Regional Centers and other vocational educators, free-loan resource center and recruitment materials available to educators across Missouri. Publications are developed to support gender equity programming in career education. Resources to promote recruitment of minorities into equity programs are developed and/or updated. A toll-free telephone number is maintained for Missouri educators to obtain resource materials and technical assistance in gender equity.
